

cna

College of the North Atlantic

Are you ready to contribute to the nursing profession in a new way?

Preceptor a student.

CNA will support you with:

A detailed virtual or in-person orientation session

Frequent check-ins with CNA faculty

Personalized support for preceptors and students

Availability of an online Preceptorship course to contribute to CCP hours

The Role of the Preceptor:

- Act as a role model to foster a positive professional attitude and image.
- Share knowledge, skills, and expertise.
- Facilitate the learning experience through guiding, directing, teaching, and communicating.
- Provide clinical supervision, including explanations, rationales, and demonstrations where needed.
- Provide opportunities for student clinical and professional development.
- Guide students to increasing levels of competence and independence while remaining available as a resource person.
- Foster student development as a member of the health care team.
- Utilize CNA faculty as a resource and source of support.
